WORK EXPERIENCE

ARMECONOMBANK
2026 JANUARY – PRESENT

Security Engineer

- Designing and maintaining security controls across cloud and on-premises infrastructure — including vulnerability management, SIEM tuning, endpoint protection, and DLP — ensuring alignment with PCI-DSS, ISO 27001, and other financial regulatory requirements.
- Leading incident response from investigation through containment and post-incident reporting, while embedding security into the SDLC, supporting compliance audits, and communicating risk posture to technical teams and senior stakeholders.

Softconstruct
2025 JUNE - 2025 DECEMBER

SOC Team Leader

- Leading the team's response to security incidents, including triaging alerts, coordinating investigation efforts, escalating critical threats to appropriate stakeholders, and ensuring incidents are properly documented and resolved within established SLAs.
- Supervising SOC analysts, providing technical guidance and mentorship, scheduling coverage to ensure 24/7 monitoring capabilities, conducting performance reviews, and identifying training needs to keep the team's skills current with evolving threats and technologies.

2023 NOVEMBER - 2025 JUNE

SOC Analyst

- Monitoring and analyzing security alerts to identify potential threats and incidents.
- Collaborating with IT and security teams to improve overall security posture.
- Managing and tuning security tools such as SIEM, IDS/IPS, EDR, and firewalls to enhance threat detection and response.
- Investigating security incidents by analyzing logs, network traffic, and endpoint activities to determine the root cause and impact.
- Creating and updating incident response playbooks and procedures to streamline SOC operations.

EDUCATION

Yerevan State University
2021 - 2025

Bachelor’s degree of Information Security

SKILLS

Endpoint Protection
Compliance
Cryptography
Forensics
Automation
Risk Assessment
